PROFESSIONAL
WOOD KIT

TRAMEX
Innovation in moisture detection

Product code: PTM2ZK5.2

A kit for instant and accurate measurement of moisture content in a large range of wood species, relative drywall readings and comparative WME (Wood Moisture Equivalent) readings in wood by-products and other building materials. Featuring the Tramex Professional PTM with its built-in pins and a handheld heavy-duty pin probe, the Professional Wood Kit comes in a Tramex protective heavy-duty carrying case with die-cut foam lining.

CONTENTS

1. PTM2.0 - Professional Pin Moisture Meter.
2. Heavy-duty pin-type wood probe.

FEATURES OF PTM2.0

- Built-in calibration for 500+ wood species or standard calibration selection.
- Wide moisture content range: 6 - 46% and digital readout to 0.1% accuracy.
- Adjustable temperature correction.
- Reading "Hold" facility to freeze reading.
- Save up to 100 readings for max, min, average and standard deviation statistics.
- Colour LCD screen with brightness adjustment for low-light operation
- Heavy-duty yet light-weight aluminum construction.
- Built-in calibration checks for confirmed accuracy.
- Battery powered. (supplied)
- Built-in pins and socket for use with a choice of external pin probes. (optional)

MEASURING RANGE - PTM

Wood Moisture Content	7 to 40%MC
WME (Ref) reference scale for building materials:	0 to 100
Drywall reference scale:	0 to 8.5

SPECIFICATIONS OF KIT

Size:	350mm x 230mm x 90mm (13.8" x 9.1" x 3.5")
Weight:	1.55kg (3.4lbs)
Power:	4 x AAA Batteries (included)
