

MRH3 Hygro-i kit

MRH3Hi1

PERFORM TESTING TO THE LATEST ASTM F2170 AS WELL AS ASTM F2420

A complete package for Moisture and Humidity measurement of the Building Envelope, incorporating 3 modes of operation :

- Non invasive moisture content testing of wood.
- Plug in heavy duty wood pin probe with insulated 7" (200mm) pins for deep wall probing.
- Plug in Hygro-i Humidity Probe for Relative Humidity, Temperature, Dew Point and Mixing Ratio readings.

ORDER CODE: MRH3Hi1

Features

MRH III - non-destructive moisture meter with built in wood specific gravity species correction

Reads 1 ¼" deep in wood. Relative scale of 0-100 for other building materials including drywall, laminate, residential asphalt shingles and masonry products.

Backlit display for easy viewing in low light conditions

Plug in hand wood probe for invasive testing

Hygro-i NEW reusable NIST traceable relative humidity probe

Contents

1. MRH III - Digital, Hand-Held, Non-Destructive Moisture Meter
CODE: MRH3
2. Accessory pack (brush, cutter, ruler, probe insertion & retrieval tool)
CODE: HI- ACC
3. Hole liners and caps (4)
CODE: see accessories
4. Hygro-i Electronic Interface
CODE: RHIE
5. 75 % RH Calibration Salt Check
CODE: SAL75
6. Hygro-i Relative Humidity Probe
CODE: see accessories
7. Insulated Pins 7" (200 mm)
CODE: SP 200
8. Hand Held Pin wood Probe
CODE: HH14TP30
9. Infrared surface thermometer
CODE: AZ8868

List of accessories available

3 Pack Hygro-i Probes

CODE: HIPP3

12 Pack Hygro-i Probes

CODE: HIPP12

Replacement Hole Liner Packs of 12, 50 or 100

CODE: RHHL 12

RHHL 50

RHHL 100

75 % RH Calibration Salt Check

CODE: SAL75

Hammer action Probe with 1.5" insulated pins

CODE: HA21SP52

Insulated RH Hood for ASTM F2420

CODE: RHIIH
